

- ✓ Rainbow rooster hi Indbro Research and Breeding Farm Private Limited, Hyderabad in a siam chhuah a ni
- ✓ Dual purpose: tui tam thei leh thang chak
- ✓ An tui an awp keu thiam lo
- ✓ Enkaw! dan a zirin thla 4-5 ah an tui thei
- ✓ Kum 1 chhung a tui theih zat : 160-180
- ✓ A sa hi a fei lutuk lova, a tui bakah thau a tlem a, a hrisel ani
- ✓ An thangchak bakah natna an do chak
- ✓ Ar In chhunga khung in emaw tlattirin emaw a vulh theih.

A Enkaw! Dan Tlangpui:

- ✓ Ar note kar 6 a upa annih thleng chu pawnah chhuah lovin chhung khung tur
- ✓ Kar 6 a upa annih tawh chuan pawnah anmahni a chaw zawng turin chhuah tur

Ar Note Pianghlim - Kar 6 Inkar Enkaw! Dan:

- ✓ Ar note dahna (Brooder) chu Arte dah hma in lo peihfela, lo tih lum lawk tur
- ✓ Darkar 2-4 chhung chu chaw pe lovin tui chauh pek tur a ni.
- ✓ An tui in turah 5% glucose pawlh tur
- ✓ A chhuatah phuai, favai, thingzaina nawi inches 2-4 a chhahin dahsak thin atha, hei hian hnawng a hip a, a tilum tha baw.
- ✓ An tet zual lai, a chaw an la thliar hran theih hma chuan phuai chungah newspaper phah sak tur.
- ✓ Arte ek ni 1 ah vawi 2 tal tihfai zel tur
- ✓ A chhuat phah (phuai, thingzai nawi) te hi a hlawm loh nan chawhleth thin tur ani
- ✓ Ar note vak darh tur vennan a danna siamsak tur ani a, rangva nem emaw lehkhakhawng emaw a remchang apiang, 15 cms a sangin siam tur.

- ✓ Brooder chep lutuk leh Ar In chhung lum tha lovah Arte an inbawhkhawm a, an thi duh.
- ✓ Brooder lum lam @ 35°C
- ✓ Tui intur thianghlim tam tawh chhawp sak reng tur.
- ✓ Vitamins leh Minerals pek dan tur : Feroliv/Ambiplex etc @ 5 ml/ Ar note 100 zelah, tui inturah ni 7-10 chhung thla tin
- ✓ A thanglai (Growers) ah 8-10 ml/ Ar 100
- ✓ Eng (light) darkar 24 chhung pek tur

Kar 6 Atanga An Puitlin Thleng Enkaw! Dan:

- ✓ Kar 6 a upa annih tawh chuan pawnah anmahnia chaw zawng turin chhuah tur
- ✓ Zana an riahna turin a In tha tawh tak siamsak tur
- ✓ Tui thianghlim intur chhawpsak reng tur
- ✓ Apa an tam viau chuan rei tak vulh lovin hralh then mai tur a ni.

Ar Chaw Pek Dan:

- ✓ Arte kar 6 a upa annih thleng chu ar chaw siamsa (concentrate feed) pek tur – Pre starter/starter
- ✓ Kar 6 atangin : 50 % Ar chaw siamsa + buhfai, buhkem, vaimim denkeh, chaw nawi etc + tlattir emaw
- ✓ Ar chaw siamsa tih tawp a, zing leh tlaiah buhfai/buhkem, vaimim denkeh, chaw nawi (@ 15-20 g/Ar 1 tan) pek a, tlattir
- ✓ Ar chaw siamsa pek tel dawn chuan nikhatah Ar 1 tan 30 to 60 gm in a pek theih
- ✓ Ar chaw siamsa pek tel leh telloh hi chu chaw dang eiturne aneih that dan a zirin a pek telin a pek loh theih

- ✓ Thlai hring lam, theihmu hnah, azolla te pek tel atha
- ✓ An tui dawnah calcium an tlakchham loh nan Ascal emaw chinai lung powder @ 4-5 g/Ar 1 tan pek tur.
- ✓ Tui thianghlim intur chhawp sak reng tur
- ✓ Ar chaw hlui leh hmuar lei loh tur
- ✓ Ar chaw quality tha chauh lei tur
- ✓ A chaw thlak dawnin thlak thut lovin, ni 4 chhung vel chu a te chaw leh a lian chaw pawlh tur a ni a, chumi hnua a hlangin pek tan tawh tur.

Ar Chaw Siamsa (Concentrate Feeds) Pek Dan:

- ✓ Starter ration (Ate chaw) : Kar 0-6
- ✓ Grower ration (Thanglai) : Kar 7-16
- ✓ Finisher/Layer ration (A puitling/tuilai chaw) : Kar 16 atangin

Ar Tuilai Enkaw! Laia Hriattur te:

- ❖ Antui laia eng (light) pek thatin artui tharchhuah a tipung thei (darkar 16 tal).
- ❖ Layer te hi chaw duh tawh tawh a chuk tir tur a ni lo. Chaw pek tam lutuk chuan an thau a, an tui tha thei thin lo.
- ❖ Ar inchuk hi Ar In tawt lutukah te a awm duh bik a, a hmu tan hi Ar note ni 1 - kar 6 inkar a upa annih in a tan theih a. A tul dan a zirin kar 16 an nihin a tansak nawn leh theih.
- ❖ An hmu chunglam hmun thuma then hmun khat leh a hnua lam a hmawr tlemte tan sak tur.
- ❖ A tuina bawm tur te lo siamlawk tur. Ar tui lai 4-5 zel tan Ar tuibawm pakhat intawmtir tur
- ❖ Size: Arpui leng tawh tur emaw 14” x 12” x 18” ruahman a, Ar tui bawm hi a fai tha reng tur a ni

- ❖ Artui bawmah puan/ buhpawl te dah sak thin tur a ni.
- ❖ Calcium pek that an ngai a, hei hian artui keh leh a hêng nem tur a veng.
- ❖ Artui ei thin Ar te chu lakhran daih tur
- ❖ Vitamins leh Minerals pek dan tur : Ar 100 zelah - Grow-Cal D3/Ascal FS/Ostovet @ nikhatah 30 - 40 ml an tui inturah pawlh sak tur, ni 7-10 chhung, thla tin
- ❖ Grow B-plex/Ambiplex @ ni khatah 10-15 ml an tui inturah pawlh tur, ni 7-10 chhung, thla tin

Ar In Sak Dan Tur:

- ❖ Ar pakhat tan 1½ feet - 2 feet bial hisap

Nikhatah Eng (Light) An Mamawh Zat:

Ar upat lam	Eng mamawh zat
Ar note piang hlim	Darkar 23-24
Kar 20	Darkar 12
Ar tuilai	Darkar 16
Arpa chi thlahtu tur	Darkar 10

Natna Laka Ar Ven Dan Tlangpui:

- ❖ Ar damlo chu dah hran tur
- ❖ Ar enkawltu lo chu Ar In chhungah luhtir loh tur
- ❖ Ar thi reng reng phumbo/halral vek tur
- ❖ Ar In leh a vel, chaw pekna, tuipekna etc tihfai (disinfect) fo tur ani
- ❖ Ar In a ro tha reng tur ani
- ❖ Boruak luh leh chhuahna tha tawh siam
- ❖ Ar In chep lutukah dah loh tur
- ❖ Chaw tha leh tui thianghlim chauh pek
- ❖ Hri danna leh rulhlut hlo a hun takah pek thin tur.

Hri Danna Pek Dan (Vaccination Schedule):

Ar natna hming	Vaccine hming	Pek hun	Pek dan tur
Marek's Disease	Herpes virus vaccine	Ni 1	0.2 ml S/c Vun hnuaiah
Ar pul hri (Ranikhet d's)	ND Lasota	Ni 5	1 drop, mit/ hnarah/tui inturah
Ar pul hri (Ranikhet d's)	ND Killed	Ni 7	0.2 ml vun hnua/tihrawl
IBD	IBD (Georgia)	Ni 13	1 drop, mit/ hnarah/tui inturah
Ar hmai huh (Fowl pox)	Fowl pox vaccine	Kar 5	Thla hnuaiah
Ar pul hri (Ranikhet d's)	ND Killed	Kar 6	0.2 ml vun hnua/tihrawl
Ar pul hri (Ranikhet d's)	R2B live	Kar 8	0.5 ml tihrawl
Ar pul hri (Ranikhet d's)	ND Killed	Kar 16	0.5ml vun hnua/tihrawl

Rulhut Hlo Pek Dan Tur (De-worming):

- ❖ Kar 6-7 upa an nihin a pek tan theih
- ❖ Kar 3 danah pek zel tur (kar 18 annih hma in vawi 4 pek hman tur). Thla 3 danah pek leh tur
- ❖ Tui inturah pawlh anih chuan arte in darkar 4 chhunga an inzawh hman turin
- ❖ Damdawi telh tui an inzawh hma chu tui dang pek loh tur

Damdawi hming	Pek zat tur	Pek dan tur
Albendazole (Albomar 2.5 %)	30 – 45 ml/ Ar 100	Tui inturah pawlh tur
Levamisole Hcl (De-worm plus/Vetmisole)	20-25 mg/kg body wt.	Tui inturah pawlh tur
