

Monthly Performance Report of the Scientist in respective discipline of KVK, under Zone-VII

Month and Year: January, 2025
 KVK : Mokokchung State : Nagaland
 Name of Scientist : Tokiho Achumi Discipline : Agronomy
 Mobile : 9612257819 Email ID : tokipugho@gmail.com

Sl. No	Activity	On-Campus		Off-Campus			Date/ Duration	Remark if any
		T	A	T	A	Village		
1	On-Farm Trial							
	Title: Performance Assessment Soyabean Var: KDS-726 & KDS-753							
	a) No. of technology taken up			1	1	Mongsenyimti & Aliba	July-Nov'25	Completed
	b) No. of trials conducted			2	2			
	Title: Performance Assessment of Groundnut Var: K-Lepakshi							
	a) No. of technology taken up			1	1	Longjang & Yisemyong	July-Nov'25	Ongoing
	b) No. of trials conducted			3	3			
2	Front line demonstration							
	Title: Popularization of Soyabean Var:MACS-1460							
	i. No. of demonstration			10	10	Yisemyong & Chuchuyimlang	Aug-Nov'25	Completed
	ii. Area (ha/ Nos.)			1	1			
3	Training Programme							
	a. Farmers							
	i. No. of courses							
	ii. No. of beneficiaries							
	i. No. of courses							
	ii. No. of beneficiaries							
	b. Rural Youth							
	i. No. of Courses/training							
	ii. No. of beneficiaries							
	c. Extension Personnel							
	i. No. of Courses							
ii. No. of beneficiaries								

Sl. No.	Activity	On Campus		Off-Campus			Date/ Duration	Remark if any
		T	A	T	A	Village		
4	Extension Activity							
	a. Exhibition							

	<i>b. Diagnostic visit</i>						
	<i>c. Group discussion</i>						
	<i>d. Publication</i>						
	<i>e. Exposure visit</i>						
	<i>f. Advisory /helpline</i>						
	<i>g. Extension literature</i>						
	<i>h. Technical bulletin</i>						
	<i>i. Radio Talk</i>						
	<i>j. TV Programme</i>						
	<i>m. Field Day</i>						
	<i>n. Method demonstrations</i>						
	<i>o. Newspaper coverage</i>						
	<i>p. Popular articles</i>						
	<i>q. Scientist visit to farmers field</i>						
	<i>r. Farmers visit to KVK</i>						
	<i>s. Farmers Scientist interaction</i>						
	<i>t. Film show</i>						
	<i>u. Lecture delivered as Resource person</i>						
	<i>v. Field visit</i>						
	<i>w. Animal Camp</i>						
	<i>x. Celebration of</i>						
5.	Seeds & planting materials						
6.	Any other activity assigned by PC	Maintenance of Natural farming plot at KVK Instructional Farm					
7.	Remark of PC	The reporting Officer was on leave during the reporting period					

 Tokiho Achumi
 Asst. Chief Technical Officer
 Division of Agronomy
 KVK, Mokokchung: Nagaland

Annexure-I

On Farm Trials (OFT):

1. Title of the OFT: Performance Assessment Soyabean Var: KDS-726 & KDS-753

Thematic area : Oilseed Production

Source of Technology : Mahatma Phule Krishi Vidyapeeth, Rahuri, Maharashtra, India (SAU)

Year of Release : 2020 & 2019

No. of trials : 3
Area : 0.75 ha

Details of the Technology:

Variety: KDS-753

Duration: 100-105 days

Plant height: 2.5 - 4 ft

Spacing: 45-60cm

Yield: 15-18 q/acre

Characteristics: Semi-determinate, violet flower, Yellow seed with brown hilum, medium size seed,
Reaction to pest and disease: Resistant to rust disease. Moderately resistance to Stem fly and defoliators.

Year of Release: 2020

Variety: KDS-726

Duration: 105-110 days

Plant height: 2.5 - 4 ft

Yield: 15-18 q/acre

Spacing: 45-60cm

Characteristics: Semi-determinate, medium size seed

Reaction to pest and disease: Resistant to rust and purple seed stain disease. Moderately resistance to Stem fly and defoliators.

Year of Release: 2019

No. of beneficiaries : 10 (5 M/5F)
Location : Mongsenyimti & Aliba
Status : **Completed**

2. Title of the OFT: Performance Assessment of Groundnut

Thematic area : Oilseed Production
Source of Technology : ANGRAU, Kadiri
Year of Release : 2021
No. of trials : 3
Area : 0.5 ha

Details of the Technology:

Variety: Kadiri Lepakshi (K1812)

Duration: 112 days (Medium duration)

Spacing: 45-60cm

Yield: 15-18 qtl/acre

Characteristics: Spanish Bunch, notable for its high protein (28%) and oil content (51%), drought resistance with stable yields even under stress high fodder value, Multiple disease and pest resistant.

* Potential yield: 20-25q/ha under rain-fed & 45-50q/ha under irrigated

No. of beneficiaries : 10 (5 M/5F)
Location : Longjang & Yisimyong
Status : **completed**

Annexure-II

Frontline Demonstration (FLD):

1. Title of Technology Demonstration: Popularization of Soyabean Var: MACS-1460

Technology demonstrated: MACS- 1460, JS-335

Technology details

Duration: 90-95 days

Oil content: 17.6-18.9%

Protein content: 41%

Plant height: 2.5-3 ft

Season: Kharif

Duration: 90-95 days
No. of Demonstration : 10
No. of Farmers : 10
Area : 0.5 ha
Location : Yisemyong & Chuchuyimlang
Status : **Completed**

Annexure-III

Training:

Annexure-V

The above information provided by the Scientist of this KVK during the reporting month was personally and officially verified and found correct.

5	Seeds and planting materials production							
6	Celebration of important events/day							
7.	Any other activity assigned by PC	Organised and attended 19 th SAC meeting at ADC,Conference hall on 27/1/26						
8.	Remark of PC	The activities have been undertaken as reported.						

Imtisenla
Asst. Chief Technical Officer
Division of Agronomy
KVK, Mokokchung: Nagaland

Annexure-I

On Farm Trials (OFT):

1. Title of On Farm Trial : Performance assessment of green gram

Technology details : **variety .IPM 410-3&MH-1142**
Source of technology : IPR
Year of release : 2020
No. of trial : 6
Locations : Asangma ,Medemyim,Tuli & KVK farm
Area (ha) : 0.5 ha
No. of farmers : 2 (male)4(female)
Status : Completed

2. Title of On Farm Trial : Performance evaluation of fieldpea

Technology details : **variety IPFD 19-1&IPFD 19-3**
Source of technology : IPR
Year of release : 2023
No. of trial : 6
Locations : Asangma ,Khanimu,Tuli
Area (ha) : 0.5 ha
No. of farmers : 2 (male)4(female)
Status : Ongoing

Annexure-II

Frontline Demonstration (FLD):

1. Title of Frontline demonstration : Popularization of sweetcorn.

Technology details : Variety; NCSH-12

Characteristic:

Excellent shelf life, high yield with more high quality cobs and forage, potential yield :95-105q/ha

Source of technology : AICRPM.
Year of release : 2013
No. of Demonstrations : 15
Locations : Asangma,Longmisa,Tuli,changtongya
Area (ha) : 1 ha
No. of farmers : 15(7M,8 F)
Status : completed

2. Title of Frontline demonstration : Demonstration of TRC Paddy

Technology details : Variety; RCM-15

Characteristic:

Medium duration (125-130days), Potential yield is 7.8t/ha
Source of technology : ICAR, Manipur Centre.
Year of release : 2018
No. of Demonstrations : 10
Locations : Longkhum,Satsu

Area (ha) : 1 ha
No. of farmers : 10(4M,6 F)
Status : **Completed**

Annexure-III

Extension Activities:

1. Field visits to Farmers field:

- Theme : Oilseed production
1. Purpose : To monitor the field condition on demonstration of Groundnut crop .
2. Date : 24/1/26
3. Place : Tuli
4. Target group : Progressive farmer
5. No. Beneficiaries : 15(10M,5F)

The above information provided by the Scientist of this KVK during the reporting month was personally and officially verified and found correct.

8.	Remark of PC	The activities have been undertaken as reported.

Khekali Sema
Asst. Chief Technical Officer
(Horticulture)
KVK, Mokokchung; Nagaland

Annexure-I

On-Farm Trial

1. Title of On Farm Trial: Varietal evaluation on Garlic var. VL Lahsun 2

Technology details: variety – VL Lahsun 2 has high yield potential and resistance to purple blotch and less storage loss. Seed treatment: Dip 1hour with pseudomonas fluorescence or 4% Trichoderma viride, 4% Azospirillum and 4% Phosphobacteria (PSB) solution and then dry in shade.

Source of technology: ICAR, VPKAS Almora

Year of release: 2013

No. of trial: 3

Locations: Asangma ,longmisa,Tuli

Area (ha): 0.5 ha

No. of farmers: 3- (1 M,2 F)

Status: On going.

2. Title of On Farm Trial: Performance assessment of improved carrot variety Pusa rudhira

Technology details: Variety- Pusa rudhira, Long red roots with self coloured core, triangular shape. Potential yield: 30t/ha

Source of technology: IARI New Delhi

Year of release: 2008

No. of trial: 4

Locations: Aliba,Asangma, Longkhum

Area (ha): 0.5 ha

No. of farmers: 4(1 M, 3F)

Status: On going.

3. Title of On Farm Trial: Performance assessment of Gerbera varieties under low cost polyhouse

Technology details : variety-T1Forbes(Red), T2 Ritmo(Yellow), T3 Capella(Orange), to be planted on the raised beds in two rows of 25x40 cm under low cost poly house

Source of technology: Central Institute of Horticulture, Medziphema

Year of release: 2017

No. of trial: 2

Locations: KVK Farm, Longkhum

Area: 10 msq

No. of farmers: 1

Status : On going

Annexure-II

Frontline Demonstration (FLD):

1. Title of Technology Demonstration : Popularization of Chilli variety Arka Khyati

Technology details : High yielding variety, light green turns deep red on maturity, medium pungent, wrinkled after drying, tolerant to cucumber mosaic virus. Yield : 40-50 t/ha (Fresh), 5-5.5 t/ha(Dry) in 180 days.

Source of technology

: Indian Institute of Horticulture Research, Bangalore .

ACTO (Soil Conservation)
KVK, Mokokchung: Nagaland

Annexure-I

On Farm Trial (OFT)

Annexure-II

Front Line Demonstrations

- Title of the FLD: Popularization of Enriched compost for organic agriculture
Thematic area : Organic agriculture
Source of Technology : AAU, Jorhat
No. of demonstrations : 2
Details of the demonstration : Amending normal compost with 1% P as Rock Phosphate together with
inoculating Azospirillum/ Azotobacter and Phosphate Solubilizing Bacteria (PSB) each and curing for about 20-25
days in shade.
For 100 kg compost, 1 kg N-fixer, 1 kg PSB and 17 kg Rock Phosphate
No. of beneficiaries : 44 F
Location : Chuchuyimlang & Khensa
Status : **Ongoing**

Annexure-III

Trainings

Annexure-IV

1. Extension Activities:

a. Field visit- Monitoring of FLD & site visit for FLD initiation (5M/ 2F) -2 nos.

Thematic Area : Soil management
Targeted Beneficiaries : Practicing Farmers
No. of participants : 5M/ 2F
Place/Village : Mongsenyimti & Longkhum
Date : 20th & 31st Jan 2025

b. Resource person: Soil “our heritage, our economy, our future” during Conference of the Asetkong Students Telongjem Mungdang (AKTM) covering 5 villages

Thematic Area : Soil management
Targeted beneficiaries : Rural youths
No.of beneficiaries : 250 (125M/ 125F)
Date : 9th Jan'26

c. Newspaper coverage on Scientific Advisory Committee meeting conducted in Mokokchung Times & Ao Milen

Date : 29th Jan'26

The above information provided by the SMS of this KVK during the month was personally and officially verified and found correct.
