

“KRISHI VIKAS” “BETA-BERHI THIKÜHYE”

VOLUME 3 ISSUE II
JULY - DECEMBER 2025

ICAR - KVK PHEK NEWSLETTER 2025

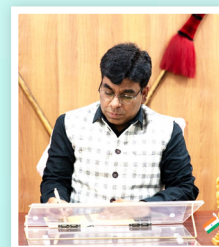

It is my privilege to present the ICAR–Krishi Vigyan Kendra, Phek Newsletter (July–December 2024), which captures the significant initiatives and accomplishments of the KVK during the reporting period. Over the past six months, ICAR–KVK Phek has remained dedicated to empowering farmers through need-based technologies, scientific interventions, and capacity-building programmes. This newsletter highlights our efforts in promoting natural farming, sustainable crop production, skill development, climate-resilient agriculture, frontline demonstrations, and innovative extension activities. These programmes have strengthened the knowledge and skills of farmers while encouraging the adoption of improved agricultural practices for enhanced

productivity and sustainable livelihoods.

The achievements presented in this issue are the result of the collective efforts of our KVK staff, and collaborating institutions, and the enthusiastic participation of farmers. I extend my sincere appreciation to all stakeholders for their valuable support and cooperation.

I hope this newsletter will provide useful insights into the activities of ICAR–KVK Phek and further strengthen our partnership with the farming community and other stakeholders in advancing sustainable agricultural development.

Dr. Sanjeev Kumar Singh
Senior Scientist cum Head
